JOHN SCRIBILL, Agent, 35 Kilby street, Boston.

The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills and ordered their papers discontinued.

4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals residing out of the county or State, may be held responsible for the subscription, unless notice is sent of their intention to stop, or to change the place of their direction, or to discontinue, at the time of subscription, unless notice is sent of such intention to the publication office.

CARRIAGES! CARRIAGES!!

THE SUBSCRIBER hereby gives notice that he has been appointed sign at for the sale of Sargent, Harlow & Co's Top Carriages of all descriptions, which he is prepared to deliver at his

Carriage Shop on Franklin Street,

Thereby affording to citizens of Bangor and vicinity, in want of such Carriage, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.

Also, that he still continues the

CARRIAGE MAKING BUSINESS,

In its various branches, including

Repairing, Painting and Trimming,

In the best manner, and at the very lowest prices. From his experience, his facilities for doing business, and the character of his workmen, he flatters himself that in the production of durable and substantial Carriages, his establishment will be second to none in the State.

MR. GEO. S. WALKER,

Well known to be one of the best Carriage Painters in New England, still has the charge of his painting department; offering a very rare inducement to those who would have their work done in an elegant and durable manner, to leave their work at this establishment. *All work warranted to give entire satisfaction*, and all bills for work payable when the work is done.

VULCANIZED RUBBER Elastic Fabrics.

THE undersigned has now in store at Wholesale only, and is daily receiving from his Factories in the U. S., and from the best manufactories abroad, large quantities of Webs, Suspenders, Gaiters, Tapes, etc., and will grant License Stamps with authority to others to import and sell the Vulcanized Rubber Elastic Fabrics. All such stamps have a *fac simile* of my name—without which no goods of this description can be legally vended in the United States during the life time of Goodyear's Patent.

HORACE H. DAY, Principal Warehouse, 23 Cour Street, N. Y.

SLATE!

THE Bangor and Piscataquis Slate Company have completed their arrangements for the manufacture of SLAB SLATE, are prepared to receive orders for any dimension which may be required, from a "paper weight" to a "Billiard Table."

This entire variety of ware to which this article may be applied, will readily occur to the artisan, and indeed to every observer of the progress of modern improvement in the arts of life.

Counters for Shops, Shelves, Hearths, Tables for Printers, Black Boards for Schools, are among the many purposes for which this article will be in demand.

The peculiar texture or grain of the stone from the Brownville quarry, being entirely free from those *pearly, or cross grains*, which have kept to disfigure almost all other slates, renders the surface of the manufactured article smooth and true; and it is insisted, and probably will not be denied, that it is the *best Slate in the known world.*

Having recently filled an order for Messrs. Wheeler & Lynde, of the Whig and Courier, they have kindly permitted their Tables to be examined at their office.

The Company can also supply almost any quantity and size of Roofing Slate, and collect orders in any of the branches of their business. Specimens at their office. Apply to C. B. ABBOT, Lower Steamboat (Coe's) Wharf, Bangor, Maine.

Plumbing

THE Subscribers have secured the services of a skillful Plumber, and are now prepared to execute

House and Ship Plumbing

IN THE BEST MANNER.

Orders solicited—and all work faithfully executed.

aug26

American & Foreign Patents.

R. H. EDDY, SOLICITOR OF PATENTS, *Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*

78 State Street, opposite Kilby Street, BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity, utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents."

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGERT.

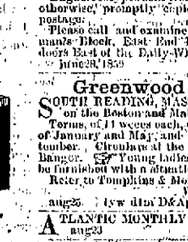
From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Sept. 1, 1859. 3tawd&wly

THE GREAT BENEFACTOR OF The Household!

STEWART'S Fuel Saving and Comfort Producing COOKING STOVE!

For Wood, and Anthracite or Bituminous Coal. With or without Hot Water Reservoir and Warming Closet!



Improved 1859, with new and extra large Flues!

THE STEWART STOVE Is the only true Economist among Cooking Stoves.

THE STEWART STOVE Operates to perfection with Bituminous Coal.

THE STEWART STOVE Will pay for itself in saving of fuel every 3 years.

THE STEWART STOVE Does all sorts of Cooking at the same time, and also gives you plenty of hot water, and a warming oven, without cost.

THE STEWART STOVE Combines the entire knowledge of a veteran inventor of 25 years experience.

THE STEWART STOVE Bakes perfectly on top and in oven, and roasts in front, all at the same time.

THE STEWART STOVE Will do twice the work of any other Stove, with the same sized oven.

THE STEWART STOVE Cookment and pastry together without imparting the flavor of one to the other.

THE STEWART STOVE Will last twenty years. Many are now in use that were purchased fifteen and twenty years ago. Although costing more at first, it is in the end cheaper than any common Stove.

THE STEWART STOVE Is the article suited to every family—it will aid in furnishing lovely with economy, while it will be found an invaluable servant in the houses of the wealthy; it will also prove a Good Samaritan in securing comfort and happiness to the families of the poor. To those in moderate circumstances it makes a most indispensable article for cooking and economical qualities.

THE STEWART STOVE Is warranted for three months, and may then be returned, at my expense—so you run no kind of risk in trying it.

I annex a few names, out of the many to whom I have sold the STEWART STOVE.

July 29, 1859

PATENT SOLID COTTON BELTING!

HAVING received the Agency for the sale of this Belting, the subscriber would call the attention of Mill Owners, Machinists, and others interested in the use of an *efficient and cheap* Belt to samples which may be seen at his counting-room, Lower Steamboat (Coe's) Wharf.

This Belting is formed by weaving several layers of Duck solid in one body, and like leather it partakes of the strain in all its parts, and gives a gain of power over every other kind in passing the pulley. It is especially adapted for open Belts, as for heavy and main Belts, while its elasticity allows it to be used on very small pulleys, and a tore quick speed is required. It can be made of any desired length without lap or joint. The cost of this Belting being about *one half* that of leather, will recommend it to the attention of every customer. Any width, from 1 to 28 inches, furnished, and extra width and thickness made to order.

Q. B. ABBOT.

FEATHER DUSTERS.—More received by

N. S. HARLOW.

Whig and Courier

Bangor Horticultural Society,

Report of the Committee on the Best Model Flower and Fruit Gardens.

It was announced in early Summer that a premium of five dollars would be awarded on this occasion for the best model Flower Garden, and the same for the best model Fruit Garden; persons competing for these premiums were requested to notify either of the Executive Committees when their gardens would be ready for examination. And subsequently, a committee consisting of J. C. Weston, Isaiah Stetson, and Elijah Low, were selected to visit them, and decide upon their respective merits after repeated and careful inspection. This is a new thing in the history of this society, and but few gardens were offered, either because the public were not generally informed of it, or because, in the arrangement of gardens heretofore, sufficient attention has not been devoted to their model, so as to render them the most beautiful, artistic and effective. In all our past exhibitions premiums were awarded only for the best products of our gardens; but now, in the opinion of the friends of horticulture and floriculture, an attempt should be made to encourage the development of taste in the structure and form of the gardens themselves; hence this new experiment, this new innovation upon past custom.

Only the gardens of John E. Godfrey, A. Noyes, Mrs. Benj. Burr, Mrs. Sidney Thaxter, Mrs. A. Barrett, and A. Emerson, were submitted for our examination. These the committee visited, some three times. They also surveyed the premises of G. K. Jewett, J. B. Fiske, J. V. Carr, Henry Little, Mrs. F. Hobbs, A. Skenger, E. A. Upton, B. Plummer, C. S. Cogood, Elijah Low, I. Stetson, J. Bryant, Wm. A. S. H. Blake, J. C. Stevens, F. Muzzy, S. C. Hasenway and T. C. Goding; and doubtless there are equally deserving of notice (on account of the multiplicity of our engagements) were not examined.

Your committee, in the discharge of the duty, have labored under some disadvantages.—They were not appointed and did not act officially until a late period of the season. The early perennials and roses had then shed their bloom. The drought had commenced, and had seriously affected all vegetation. Besides, it has been a year of comparative scarcity of fruit.

Your committee first examined the place of John E. Godfrey, the last of July.

It consists of some four acres agreeably diversified by nature and embellished by art. It is emphatically a picturesque landscape garden, artistic in design, skillful in execution, beautiful in effect, surpassing in excellence any grounds which came under our notice. The natural beauty has been developed and enhanced by the busy hand of improvement, by fine curving carriage drives, by meandering paths surprising one at every turn by new and varied landscapes, by rustic seats and secluded arbors. Stones and rocks have been removed and substantially arranged in bank walls.

Trees of every variety, in a natural park along the precipitous bank of the Kenduskeag, find here select representatives, appropriately trimmed so as to be more effective, and contribute to some artistic design. Sweeping terraces, like gigantic steps, mount the brow of the hill. A broad lawn spreads out in ample dimensions on one side of the rural cottage—an artificial forest on the other, transplanted with such skill as suggests a doubt whether it is the work of nature or art; and yet no tree is allowed to obstruct an attractive prospect. The fences, the hedges, the ornaments, are all in keeping—all in harmony. Even the dog kennel accords in architecture with its adjacent prototype. And all this has been accomplished within ten years, indicating what industry and good taste can do in improving the natural beauty of a landscape. Last, but not least, an immense flower order gracefully sweeps around the curved carriage road, with its great variety of perennials and annuals in perpetual bloom; the best arrangement for such a place, but not in bad fashion, making a model flower garden.

We are however authorized by the Executive Committee, and gladly bestow a premium of $6 on John E. Godfrey, who so richly deserves it, for the best Landscape Garden.

On the opposite side of the Kenduskeag is the old garden of the Messrs. Blake, with its vines, and trees, and shrubbery, and flowers, in a high state of cultivation, and a natural park unadorned by art, which is susceptible of great improvement by a skillful exercise of skill and labor.

A model flower garden should be tasteful in arrangement, varied in the form of its beds, curved lines predominating. Hardy perennials, roses and flowering shrubs, like a warp in a fabric, should occupy part of the space, and a succession of annuals should, like the woof, fill up the remainder. A neat border should surround them like the frame of a picture. In this way, verdure and effloresence may be secured from early Spring to late Autumn. No noxious weeds must be allowed to invade these domains; but should be exterminated. Those of Mr. Noyes, Mrs. Burr, Mrs. Thaxter and Mrs. Barrett possess these characteristics.

Mr. Noyes cultivates a great variety, and in their season, has a constant succession of bulbs, flowers and vegetables. However rare and costly any plant may be, it is specially procured, and helps to swell the aggregate of his abundant collection. To his invaluable services, we owe the introduction among us of many a beautiful shrub and plant and tree.

Of the smaller fruits, there was a beautiful crop of some twenty kinds of gooseberries, perfectly free from mildew, and twelve or fifteen varieties of raspberries. His apples, particularly the early and hardy Russian sorts, such as Red and White Astrachan, Dutchess of Oldenberg, Tetofsky, and others, have been remarkably beautiful and attractive.

His flowers are tastefully disposed in one broad parterre, the walks being bounded by iris. Many of them are magnificent in size, form and color, especially his asters, dahlias and some twenty kinds of gladiolas; and his garden has been kept this summer remarkably free from weeds, when we consider his other avocations and the great extent of his grounds, some six acres being under cultivation. Perhaps one of the premiums would have been awarded him; but the owner regarding his garden rather as a public nursery, would not allow it to compete with those which are smaller and more private.

In the opposite part of the city, is another nursery of a similar character, owned by J. W. Carr, where we saw a fine collection of evergreen and other ornamental trees of rich foliage and graceful forms, and the usual variety of shrubs, vines and fruit trees, including some dwarf pears bearing tempting fruit.

Mrs. Burr's lot is small, but every available foot of ground is occupied by a profusion of flowering plants;—even the borders of the several plats consist of pinks.

There are specimens of nearly every variety blooming in the proper season, so that the senses are ever regaled by constant beauty and fragrance. Even the elegant Japan lilies are here cultivated. The great variety and abundance prove how much can be arranged in a little space. It is truly *multum in parvo*, and all the work of selecting, combining and cherishing, is performed by the industrious hands of the owners.

Mrs. Thaxter's double balsams are superior to any others in the city, and her aster and petunias are inferior to none. The collection contains some of the rarest kinds of flowers, grouped in picturesque beds, which are bordered with velvet grass kept closely shaved.

We noticed also on the premises several sturdy old oaks, which a good taste and thoughtful foresight had carefully preserved. We also saw in the vicinity some of the same aboriginal forest trees on the ample lawn of Mr. Leonard Jones. Mrs. Barrett's garden particularly excels in the pattern of the beds and borders. The plat of ground is laid out with exquisite taste. There is no monotonous uniformity; but each group of flowers is arranged with an eye to harmony and variety of color, just to produce the best combined effect at one glance. Each assortment of flowers is one large bouquet, surrounded by a frame, either square, circular or oval, of myrtle or thyme or thrift, or maple.

So nearly equal in merit are the last two, that your committee have experienced no little difficulty in deciding which should bear away the premium. The one has the larger space for the display of taste and skill, and the most flowers; the other, the best arrangement and borders.

Our opinion has wavered and balanced, sometimes preponderating in favor of one, and then in favor of the other. But as the five dollars are waiting to be bestowed, we can hesitate no longer. If asked by one about to commence a flower garden, whose we should recommend to be studied as a model, we should mention Mrs. Barrett's; therefore, to her, in our opinion, the premium should be awarded.

We visited with delight the little garden of Mrs. T. C. Goding. In a contracted spot, occupied for a wood-yard in winter, is a display of flowers of every hue and variety. It is to be regretted that one who is such an amateur of this department of the beautiful, should not have a larger arena for the development of her natural bent and taste. In this case, "the desert has been made to rejoice and blossom as the rose." Such an example is worthy of all commendation. It tends to stimulate and encourage those who have only a few feet of soil, saying eloquently to them: "Go and do likewise."

Mr. Albert Emerson has an ample lot, profusely filled with fruit trees, where for years an abundant supply of plums and apple and smaller fruits have been raised, which have so often appeared in this Hall, and contributed so materially to the success of our exhibition.

In this year of scarcity, he has not been exempt from the common lot. His currants, however, have been very prolific, producing fifty bushels, or about a ton in weight. Many a bush yielded half a bushel; and this season he has manufactured ten barrels of wine from the pure juice of that fruit. Mr. Emerson's garden is now crowded by many small trees which give it the character of a nursery; but when these are removed, and some improvements are made, it is capable of becoming a model fruit garden.

Mr. Elijah Low, in a lot only forty by seventy-five feet has some forty trees and vines. These have been so well cultivated that most of them are bending down with the weight of fruit, a sight to feast the eyes of all beholders when so little is to be seen elsewhere. We saw an ingenious contrivance designed to give the alarm and arouse the Chief Engineer of the Fire Department to be a terror to the evil doers, whenever any predatory feet enter his premises by night.

As no fruit gardens have been submitted for our examination, which realize our *beau ideal* of models, your committee would recommend to withhold the premium offered.

Did time permit, there are many other gardens equally worthy of comment, but this report is already too long.

While in the discharge of our duty we ascertained that our city contains twenty-eight graperies, probably as many as in all the rest of the State, in some of which hundreds of pounds of delicious grapes are raised every year, embracing all the principal varieties. And in all our walks and rides we have witnessed on every side such an exuberance of foliage and flower and plant and vegetable as produce an aggre-

gate effect of which any city may be justly proud.

All of which is respectfully submitted by your committee,

J. C. WESTON,
ISAIAH STETSON,
ELIJAH LOW.

Report of the Committee on Flowers.

Again have the Flowers assembled in Convention, and again has it been the duty of your committee to compare their merits and bestow the premiums on the most deserving; but so nearly equal in excellence are the several contributions that it has been almost impossible for the committee to exercise a proper discrimination, and they are by no means certain that in their awards they have done exact and equal justice to all. Excellent as was the exhibition last year, it has been equalled if not excelled by the present.

While many familiar fruits have been absent the flowers have all made their appearance on this occasion, to form the crowning glory of the exhibition. This is appropriately woman's department, and nobly has she fulfilled her mission. The bright sun has smiled on her labors, and developed and fixed all the transient hues of the rainbow in the brilliant specimens before us, and it is a cause for congratulation that so much beauty and fragrance have been plucked, as it were, from the very jaws of the morning's untimely biting frost. The bouquets have been more numerous and meritorious than ever met here before, and as there is so little second best the committee have taken the liberty to change the number of premiums to better correspond with the character of the collection. In accordance with this alteration they would bestow the premiums of

$8 00 upon Mrs. A. Barrett for best five bouquets,

$2 50 on Mrs. John E. Godfrey for best four bouquets,

$2 00 on Miss Ella E. Burr for best three bouquets, composed of rare and very rich flowers,

$1 75 on Mr. A. Noyes for best two bouquets,

$1 50 on Miss Sarah E. Emerson for best single bouquet,

and the premium of $1 00 on Mrs. T. C. Godfing for a bouquet.

The Society is under great obligations to Mrs. Sidney Thaxter, Mrs. G. K. Jewett Mrs. I. S. Whitman, Miss Agnes Wood, Mrs F. Muzzey, Mrs. J. C. Weston, Mrs. Moses Young, Miss E. W. Eaton, Mrs. Thomas, Mrs. Henry Little, Mrs. Dan'l B. Hinkley, Mrs. Robbins, Miss M. F. Noyes; and Mr. John Pomfret for bouquets of artistic design, of skillful arrangement, of brilliant effect, which have contributed their full share to render the combined collection attractive and successful, and it may be that the most modest and meritorious flowers were concealed in the crowd and failed to attract proper notice; they are all deserving of premiums and if the ability of the Society were commensurate with their good will, they would be freely conferred. So many flowers were culled and combined in these bouquets that the out flowers did not appear in their usual variety, but these present were of the best quality. Particularly the asters and dahlias excelled any past show. Mr. Noyes' collection of these large and gorgeous flowers has been truly magnificent, and to him is given one dollar each for best display of these varieties.

Your committee would also award $1 00 to Miss Sarah E. Emerson for best display of verbenas, and $2 00 to F. H. Duffey for best cut flowers, open culture. The thanks of the Society are especially due to Mrs. F. Muzzey, Mrs. C. C. Goding, Mrs. Sidney Thaxter, Mrs. I. S. Whitman, for occupying a very important and conspicuous niche with splendid asters and other cut flowers. By their industry a large vacuum of empty vials was filled to overflowing; also to Mrs. Isaiah Stetson for gladiolus, pansies, moss and remontant roses; to Mrs. W. H. Parsons for elegant pot plant, to S. C. Hemenway for fine beautiful pot plants, to Mr. John Pomfret for fine cucumbers, and to several others for baskets and dishes of rarest flowers which so adorned the long table of fruit. To Mrs Sidney Thaxter is awarded $2 00 for best Floral Design, and to Mrs. M. B. Jerrard $1 00 for second best—an ample column of flowery architecture reared with great skill and labor; to Mrs. O. H. Ingalls $1 00 for best pot plant, a gigantic fuschia; to Mr. S. J. Murphy 50 cents for best cucumbs; to Mrs. I. S. Whitman $1.00 for hanging basket of dried grass adorned with flowers.

Your committee would recommend a gratuity of $1 00 each to Mrs Moses Young for a beautiful moss basket; to Mrs. J. C. Weston for bouquet of pressed flowers, and to Mrs. Wm. Lewis for moss cottage.

Those of our citizens who have neglected to visit this worthy exhibition have lost vastly more than the Society would have gained from the trifling admission fee. They will probably not have another opportunity to witness such an attractive spectacle for one long year.

Respectfully submitted by

J. C. WESTON,
ISAIAH STETSON,
ELIJAH LOW,
T. C. GODING,
} Com. on Flowers.

Bangor, Sept. 16th, 1859.

IGNORANCE ILLUSTRATED.—The Paris correspondent of the New York Express found a Frenchman looking at a portrait of Washington. The correspondent was politely asked who 'that' was. With astonishment and indignation, he replied, "Washington!"

"Washington!" replied the Frenchman—"it seems to me I have heard that name somewhere."

This was abominable. Quite as bad as the remark of the Englishman to whom the patriotic Yankee was exhibiting Bunker Hill Monument.

"This," proclaimed the Yankee, is the spot where Warren fell."

"Ah!" said the Englishman, glancing at the top of the monument, "did it 'urt him much?"

"Hurt him," roared the Yankee. "He was killed."

"Well, I should have thought so!" calmly replied the Englishman.

The Biblical information which the Democrats bring to bear upon the question of slavery, in all its aspects, is remarkable and refreshing. Mr. Dennison, the Democratic candidate for Governor of Ohio in a speech in Adams county, justified the fugitive slave, on the precedent of Hagar in the wilderness, who was told by the angel to return with "her slave-born child" to her master. Mr. Dennison argued that if the angel had been opposed to the fugitive slave law, he would have told Hagar "to make tracks for Canada." We have seldom seen a more cutting illustration—in a Democratic argument.

Providence Journal.

MILITARY ENCAMPMENT. An encampment of the troops of the 6th Division M. V. M. has been ordered to take place in Portland on the 4th, 5th and 6th of October.

50 per square for first week—$1 00 per square for continuance.

DEMOCRACY IN MASSACHUSETTS THE SAME AS ELSEWHERE.—The Boston Atlas says one of the most amusing and instructive incidents in the Democratic State Convention at Worcester, was the enormous number of ballots cast for President of the convention. Almost 1400 votes were thrown and all counted, notwithstanding the obvious cheating and ballot stuffing. The vote was nearly as large as the entire Democratic strength in the State, exclusive of the Irish coborts. But that made no difference—the Democracy there are rapidly adopting the tactics of their party in other sections of the country; that is, the largest number of votes possible with the present men.

DEMOCRATIC RUFFIANISM.—The New York Express says that the Jacobin Club, in Revolutionary Paris, in the worst days of the "Mountain" could hardly have exhibited a worse scene of Ruffianism, Violence and Terror than was presented at the Democratic Convention, at Syracuse, last week. Prize fighters, the boxers and bruisers, the champions of the Ring and the Cock-pit were the ruling spirits. Firearms, as well as fists, were occasionally employed, and in one instance one of the officers of the Convention was knocked sprawling heels-over head from the platform. Yet these are the men,—the "Benicoin Boys," that now-a-days not only make State "governaships," but "Judges," Governors, and Presidents of the United States even!

☞ Do our brothers of the Bangor Whig consider it quite fair to attribute to the Bath Times what was said by a correspondent?—*Bath Times.*

We crave pardon of the Times. The extract which we clipped from that paper, and preserved for use after election, we now find was from a correspondent. The editor had "leaded" out the article, however, and put it under his editorial head We supposed at the time that he endorsed the predictions of his correspondent. He allowed his readers to believe them at any rate.

The Republican majority is larger this year, than is necessary for all practical purposes.—However, there seems to be one good result from it—it makes the sham-democracy more truthful and more civil. The last Bangor Union admits 11,000 majority, and admits it in favor of the "Republican Party." Not long ago it would have been the "*Black* Republican Party,"—and would be so again, if in the minority, or a meagre majority. "*Cause alter cases,*" as Mrs. Partington would say.

The Republican majority in Maine is even larger than the most sanguine hoped or predicted. It will reach nearly twelve thousand, the largest sin ce 1856. The Democracy of Maine had better suspend payment.—*Boston Atlas & Bee.*

They will do so after next year—or, what is the same thing, the custom-houses will suspend.

THE MORMON ABOMINATION.—A correspondent of the Philadelphia Christian Observer, under date of Camp Floyd, (Utah Territory,) July 9th, writes as follows:

"You cannot surely know the high handed crimes which this people commit in the name of the most High God.

"The basest passions of the basest men have full scope of gratification in the name of religion. In the name of religion, arson and murder are committed To save the souls of men who have apostatized, their throats are cut. If women refuse to become the third, fourth or fortieth wife of some lustful saint, their throats, in many instances, have been found cut in foul murder, and the report started—*committed suicide for fear of the wrath of God!*" All these, and more, are done in the name of the Lord, and by and with the advice and consent of the heads of the church!!! The Judge of this Judicial District, (the 1st) informs me there are now over one hundred and sixty murderers, many of them known and acknowledged to be such, running at large, and in full communion with, and protected by the Mormons—a large proportion of whom are Bishops and Elders, and other church dignitaries. This is the district in which were committed the Mountain Meadows murder, the Parishes, the Jones and Forbes, and others.

"Brigham Young, a few Sabbaths since, said in the Tabernacle, that he (Young) was *expecting a revelation from God commanding his children by one wife to intermarry with his children by another wife, to secure a pure priesthood.*"

This people have pretended prophets and revelators, who pretend a revelation for any emergency, commanding the perpetration of any crime that may be desired, to accomplish any end; in the name of God.

All their wives are taken in accordance with pretended visions, dreams, or revelations.—Should the woman object, she is asked to reflect with care, and admonished to *obey counsel.* This admonition *to obey counsel, is ominous, savoring of throat cut, pretending suicide.* But poverty here is so distressingly great, and women who are not wives have so little liberty, together with the fact that many more women than men are members of this pretended church, that women hardly ever object to becoming the wives of any men who can in any wise assist in their support, careless how many wives the men may already have.

And herein is found the excuse for polygamy on the part of the females, though they may pretend to receive the institution as from God. The men profess to marry wives wholly as a religious duty, *claiming more wives as religious light and knowledge increase.* Lapine an excuse can more easily be found for this abominable, polygamous habit

REAL ESTATE SALE. H. S. Prescott, Auctioneer, sold the Russel farm on the Northwest Avenue Road, yesterday, for $675. Cornelius Crowley was the purchaser.

GOOD YIELD.—Mr. James H. Gould, of Upper Stillwater raised, the present season, one and a half bushels of potatoes from five seed potatoes. They are of the "Union St. John" seed, and no manure was used upon the ground.

LOCAL AND MAINE NEWS.

THE OPENING OF MR. WARREN'S EATING ROOM, last evening, was an occasion of much interest. The rooms are situated in the northern part of the basement of Wheelwright & Clark's new block, having the principal entrance from the western approach to Kenduskeag Bridge. They are spacious and well-arranged, and are handsomely furnished with large marble tables, to the number of ten or twelve in the principal room, capable of accommodating at least one hundred guests at a sitting—and with several elegantly furnished alcoves for ladies, or for those wishing retirement.

The kitchen and culinary department is admirably arranged, for convenience, efficacy and prompt service. It is provided with one of Gibison's Patent Cooking Ranges, and has an unfailing supply of excellent water from a copious fountain discovered in the excavations for the building. Altogether, the establishment is complete in its kind, and well calculated to subserve the wants of a hungry public.

The opening last evening was a complimentary visit of citizens, to the number of two or three hundred—gentlemen who, being well acquainted with the personal worth of Mr. Warren, and of the benevolent services which he has for many years past been in the habit of rendering to the sick and distressed of our city were desirous of testifying in this manner the appreciation in which he is justly held by our people.

After a season of pleasant social enjoyment, the company partook of refreshments served in good style,—the tables having been beautifully decorated with flowers by the willing hands of fair ladies.

Col. Henry Little had previously been selected as President of the evening, and the blessing, of Providence was invoked by Rev. Mr. Maltby.

The bountifully laden tables having been duly honored, remarks appropriate to the occasion were made by his honor Mayor Stetson, by Messrs O. H. Ingalls, Chas. S. Crosby, C. P. Roberts, Joseph Bartlett, W. H. Wheeler, F. M. Sabine, E. P. Baldwin, Oren Favor, J. C. White, E. F. Duren, G. W. Merrill, Dea. Allen, Rev. Mr. Dalton, Dr. Straw, Capt. Flowers, Mr. Hyde, and others.

The general sentiment expressed was one which honored alike the gentleman for whom the occasion was made, and the city whose people thus testified their appreciation of philanthropy and true greatness of soul. It was a gratifying homage to the highest and noblest attribute of human character—goodness of heart and active benevolence. In our estimate of worth, this should ever be before what the world is apt to consider greatness,—and such was evidently the estimate placed upon it by the very large and respectable assemblage which met last evening at the rooms of Mr. Warren.

At the close of the complimentary remarks, Mr. W. responded in a modest and feeling manner, tendering his acknowledgments for the honor done him on the occasion—an honor which he felt was far greater than he deserved, but for which he expressed his most heartfelt thanks.—He then recurred to the earlier days of Bangor, and o her material and moral progress during the past quarter of a century—giving some interesting reminiscences of the men and the events that have made their mark upon those passing years. He referred, in closing, to his own business opening in the basement of the old Taylar store, on the spot where now stands this elegant and imposing structure. It had been remarked that in the years previous to that time ardent spirits were largely sold by other occupants, as was then the general custom. His advent there was in the time of the great flood, when ten or fifteen feet of water covered the whole premises. It then became a cold water cellar and had been so ever since; and he would guarantee that it should always remain so as long as occupied by him.

At about 11 o'clock the company took their leave after the singing of Old Hundred, and with a parting grasp of the hand to the worthy host.

MESSRS. WHEELWRIGHT & CLARK open their Cloth and Clothing Warehouse on Thursday in the new and splendid five story block erected by them, and now about completed, on Taylor's Corner, West Market Square. They occupy the entire first floor as a salesroom—being an area of nearly sixty feet square, with a height of about 16 feet—lighted by an elegant iron front with heavy plate-glass windows upon the west and north sides of the building—and being finished in a most thorough manner, and in handsome and commodious style throughout.

In their manufacturing department Messrs. W. & C. will occupy the largest part of the fourth and fifth stories; and one half of the basement will be devoted by them to steam works by which the entire building is to be warmed, through very effective steam heating apparatus, manufactured by Messrs. Campbell, Whittier & Co. of Roxbury Mass., and furnished we believe through Messrs. Fenno & Hale, the agents in this city.

Messrs. Wheelwright & Clark are now located in the most elegant building for business purposes in the State—and have one of the most extensive establishments in their line of business.

A desire has been expressed by many to examine this beautiful building, and we are requested to state that it will accordingly be open to visitors on Wednesday, (to-morrow).

REV. MR. BAPST. It is stated that the petitions asking that Rev. Mr. Bapst may be continued in his present position as pastor of the St. John's (Catholic) Society in this city, have not been successful in their object. Mr. B. is to be transferred to another charge—a determination which will cause much regret to all who have known and appreciated his efforts to promote the cause of temperance and good order in our city—and especially to the members of his own society.

☞ The lamp post at the corner of Harlow street, and Central Bridge disappeared yesterday forenoon, having been demolished, together with a granite post of a foot in diameter, by the sudden descent of a pedlar's wagon from the neighboring stable. The wagon was up more damaged than the donkey's head when he battered through one of the walls of a modern built New York house.

The State Fair.

AUGUSTA, Sept. 19, 1859.

Extensive preparations have been made for the approaching State Show and Fair, which commences here to-morrow morning.

The show of manufactured articles will not probably be equal to last year, but there will be a very large and excellent show of Stock, better than was ever seen together in this State. A great number of entries have already been made, and they are now being made regularly.

There will be a remarkable fine show of young horses on the ground, of all the different bloods, many of them rapid travelers. Among them will stand out conspicuous those entered by Thomas S. Lang, Esq., numbering half a dozen his fine young horses as can be found in the United States.

The weather bids fair to be pleasant, and we think the turn out will be larger than at any previous show. L.

THE RECEPTION OF THE EAGLES. Of the reception of the Eagles on Saturday evening by the Volunteers, and the supper at the Hatch House, we gather the following from the Jeffersonian and the Times:

Mr. Chief Engineer Low presided at the tables and welcomed the company back to the city. Mr. Foreman J. W. Williams called upon ex-Foreman Jere. Fenno to give a narrative of the visit. Mr. F. responded. He stated that the Eagles and the Band accompanying them were everywhere cordially received—in Portland and Boston,—and uniformly comported themselves with the proprieties of gentlemen and firemen. They had no hand in the disgraceful riot which occurred in Manchester on Wednesday night between a portion of the mustered firemen and the gamblers. Ill luck only is to be charged with their failure to obtain a prize—good or bad playing having depended very much upon the wind at the moment of the play. The first prize was taken by an ordinary engine, there having been a calm at the time of her play. It is stated that this engine declined to play with our Eagle Company, on Friday morning, for $100. A crack Hunneman tub, from Roxbury, manned in part by workmen from the builder's machine-shop, made but 127 feet on her play.

Remarks were made, by guests and firemen, and hearty responses given to toasts to the citizens of Manchester, Ex-Eagles and friends in Boston who gave a breakfast, and others for testimonials of good will. Chief Engineer Low, Foreman Williams, Ex-Foreman Fenno and the Band were enthusiastically cheered.

INCENDIARY ATTEMPT. On Thursday evening about 9 o'clock, an attempt was made to fire the boarding-house of Mrs. Butterfield—the old Dr. Porter mansion. It seems in the L part on Centre street, there was quite a lot of cooper's shavings. The window to the basement was only partly boarded up. It was thought that camphene had been poured on the shavings which were then set fire to. Capt. Small, who lives opposite, fortunately, discovered the light, and taking two buckets of water with him succeeded in quenching the fire.—*Portland Adv.*

Mr. John W. Moody, second mate of ship Mary, of Bath, whose case has been referred to in our columns, has written a letter to his parents in Portland, in which he states that the sailor whom he knocked down, first struck at him twice; one of the blows he warded off and the other hit him. Moody then struck the man with a bolt, not supposing he hurt him very badly. The man was carried on shore, put into a filthy place where he died—four days after. While he lay in this place, it appears from the letter of Captain Ancel Dyer, of the ship Kate Dyer of Portland, that there were three deaths in the house from a contagious disease; and that the nurse of the wounded man died of that disease, the day after the sailor's death; circumstances which, with other facts in the case, render it probable that the sailor also died of the disease, rather than from the effects of the blow given him by Moody.

The body of Andrew J. Mayhew, who was drowned near Deer Island, Moosehead Lake, by breaking through the ice about the first of May last, was found a few days since by a New York gentleman, about half a mile above the Kineo House, ten miles from the place he was drowned. The body had washed ashore, and was partially covered with sand. His watch and knife were found upon him. Decomposition was very far advanced. The funeral will take place to-day at Kenduskeag, where he belonged. Rev. Mr. Battles, of this city, will attend.

AGAIN PASSABLE. The bridge near Mr. Worcester's farm on Stillwater Avenue, which fell on Saturday night, and which we supposed could not be rebuilt so as to be passable for several days, has been already replaced by the promptness and energy of our Street Commissioner. It was made available for travel by 4 o'clock, yesterday (Monday) afternoon.

RAILROAD FARE TO THE STATE FAIR. It will be seen by advertisement that passengers upon the Penobscot & Kennebec Railroad who purchase Tickets to Kendall's Mills will be furnished with free Return Tickets from that station, good for any train during this week. Passengers will be carried on the Somerset and Kennebec road from Kendall's Mills to Augusta and back on the same terms.

THE GREAT EASTERN NOT COMING FOR A PORTRAIT.—It will be seen by the Persia's news, that the Great Eastern's day of leaving for Portland has been postponed until Sept. 29th—two weeks later than at first intended. Her arrival cannot therefore be looked for before the 5th or 6th of October.

A SPLENDID PLUM ORCHARD. Charles Barrett, Esq., of Rockport, (Camden), from whom we received and noticed some specimens of plums the other day, has the most extensive and most thriving plum orchard in the State. It contains 287 trees, and embraces 75 varieties of plums—the trees being generally in a thrifty and bearing condition.

GREAT YIELD. Wm. D. McLaughlin, Esq., raised on 84 acres of land, on his farm in this city, 96 tons of hay, being an average of about three tons to the acre. From less than three acres he has harvested 185 bushels of barley.—*Union.*

MILITARY. Marion B. Patten, of Brewer, was, on Saturday evening last, unanimously chosen Major of the First Battalion of Artillery of the Ninth Division, in place of Major Samuel Dearing, resigned. Col. Jameson and Major Roberts presided at the election.

THE ST STEPHEN MURDER. On Tuesday afternoon last, says the St. Croix Herald, a shocking murder was committed at St. Stephen. Two men became engaged in a quarrel on the public street near the Toll Bridge, when one of them drew a knife and stabbed the other, which produced death in a few minutes. The name of the murdered man was James Clarke. The name of the murderer is Thomas Bowyer. The two worked together in Mr. Perkin's lathe establishment during the summer, and were on friendly terms until within a few days past, when it was discovered that some ill-feeling had arisen between them from some cause. On Tuesday, after dinner, they were seen together on the street. The deceased asked Bowyer to go and drink with him, which he refused to do; this was followed by Clarke striking him, when Bowyer produced a dirk knife and stabbed his assailant in the heart.

RIOTOUS PROCEEDINGS.—A serious disturbance took place at Milltown, (Calais,) on Monday the 12th. A crowd collected to witness the performances of one of the engines in throwing at the Torrent flag staff, during which two boys commenced a fight. An older brother of one of the boys interfered, and the melee became general. At the bridge the crowd increased, stones and clubs were used, the combatants rushing on followed by the crowd. Threats were freely made, stones thrown in abundance, several heads bruised, and the row assuming a serious aspect, officer Spaulding, aided by others, went into the crowd and arrested four men, who were placed in a coach and conveyed to Calais. Shortly after leaving Milltown, the coach was assailed by a shower of rocks. Mr Spaulding was struck on the leg and badly bruised. Several persons were arrested and fined.

DROWNED. The Wiscasset Herald mentions the death of two persons by drowning in that harbor on Thursday, by the names of Ira Kincaid and Susan Shaw. There were three persons in a boat, which was swamped in the Narrows and all thrown into the river. The two that perished were in the river full an hour; while Summer Donnel, the only one saved, swam ashore.

The ship Amity, from Glasgow, 21st of July, arrived at Boston on Saturday. The master reports that on September 4th, at 8 A. M., came in contact with sch. Coquette of Bucksport, off Bangueras. The schooner had no light, at the time. She was so badly damaged that the captain and crew abandone her and came home in the Amity.

TELEGRAPHIC
TO THE
Daily Whig & Courier.

European News.

Arrival of the Persia.

The Great Eastern's Trip Postponed for a Fortnight.

NEW YORK, Sept. 19.

The steamship Persia has arrived.

It is announced that the steamship Great Eastern will not sail until Sept. 29th. If her trial trip proves successful, the Cunard Steamship Company propose constructing a similar vessel for their line.

The political news is unimportant.

There was talk of the advance of Pontifical troops into the Italian legations.

The Persia was detained by an accident to her machinery.

Breadstuffs generally drooping and lower. Wheat declined 3d., Corn unchanged. Provisions dull. Consols 95½ a 95¾.

WASHINGTON, 19th.

It is reported that a large number of river and bay craft are ashore in the lower Potomac. The brigs reported ashore yesterday have arrived at Alexandria. It is reported steamship Mt. Vernon from Washington for New York was lying yesterday morning at Piney Point with large ocean steamer alongside.

NEW ORLEANS, 19th.

Steamer Atlantic which has arrived below reports loss of U. S. steam frigate Fulton, which went ashore on Santa Rosa Island near Pensacola during the gale on the 16th. The hull lies high and dry and is breaking up. Crew and stores were saved.

CHICAGO, 19th.

In the case of Hussey vs. McCormick for infringement of patent for cutting apparatus of a reaping machine tried recently before Judges McLean and Drummond, a decision was given today in favor of the plaintiff, Hussey.

NEW YORK, 19th.

At an early hour this morning seven hundred of the Bergen tunnel rioters repaired to Hudson City and made an attack upon the dwelling house of policeman Austen, who had been active in arresting their comrades. Several shots were fired through the windows, one of which grazed the head of Mr. Austen's child. On ringing the alarm bell, the citizens assembled in force and some rioters were arrested. The preliminary examination of tunnel rioters commenced to-day at Hudson City.

MARSHALL, Texas, 19th.

The Southern Pacific R. R., was sold under an execution to-day, and purchased by Gen. E. V. Richardson and his associates. President Fowlkes is paying off the debts and preparing to re-organize the company, who will elect Edgar Thompson President, unite with the El Paso Co., and continue the construction of the road.

PORTLAND, 19th,

Schr Excel, Chase, from Boston for Portland was lost on Folly Island near Cape Porpoise on Sunday night. All hands were saved. The vessel went to pieces. Chains, anchors, sails and rigging were saved.

NEW YORK, 19th.

In the list of passengers by the Kangaroo, are the names of a deputation of the General Assembly of the Church of Ireland. Rev. Dr. Edgar, Rev. Mr. Dill and Rev. Mr. Hilson.

New York Markets.

NEW YORK, Sept. 19.

Flour—receipts 17,494 barrels, sales 13,600 barrels—State and Western heavy and 5 a 10c lower — Unsound $3,50 a 4,00; superfine State 4,00 a 4,40; extra State 4,50 a 4,60; two round hoop Ohio 4,75 a 5,14 for old, and 5,00 a 5,15 for new; common to good extra Western 4,60 a 4,80. Southern heavy—sales 1700 barrels—Mixed to good 5,00 a 5,50; fancy and extra 5,15 a 7,00. Canada nominal.

Wheat one-eye two lower—sales 42,000 bushels—No. 2 Chicago Spring 95; red State on private terms; white Kentucky 1,20; new southern white 1,25 for common; Canada white 1,17; Milwaukie club 1,01 a 1,18; western red 1,05 a 1,12; do white 1,17 a 1,25; new white Michigan 1,21 a 1,23; new southern red 1,28; new red Ohio 1,17.

Corn scarce and 1 a 2 better—sales 26000—Mixed western 85 a 86; small lots for 87; yellow 88 for Jersey.

Oats quiet—Southern and Jersey 32 a 37; Northern and Western 37 a 41.

Beef dull—sales 250 barrels—country mess 6,50 a 7,00; prime 5,75 a 7,00; repacked Chicago 7,00 a 10,00.

Pork firmer—sales 3476 bbls—mess 15,12 a 15,20 a 15,37; closing with no sellers under 15,30; prime 10,62.

Sugar firm; upward tendency—sales 620 hhds—Muscovado 5¾ a 6¾; Porto Rico 7¾.

Coffee quiet—sales 140 mats and bargs—Java 15¾.

Molasses steady—sales small—Muscovado 28 a 29; New Orleans 41; Porto Rico 33 a 35.

PAINFUL OCCURRENCE.—A statement is made by the Argus and other papers, which we trust is exaggerated if not wholly untrue, to the effect that a collision occurred in Boston, on Saturday, at the office of the Middlesex Mills, between Dr. J. C. Ayer, of Lowell, and Richard S. Fay, Jr. Treasurer of the corporation, and that Mr. Fay was stabbed with a penknife in the abdomen by Dr. Ayer. Mr. Fay was taken to his residence and Dr. Ayer was arrested. It is stated that Mr. Fay acknowledges himself to have been the aggressor. Dr. Ayer states that the blow was inflicted in self defence; he had a penknife in his hand cleaning his nails when Fay made an attack upon him. It is not supposed that Fay's wound is a dangerous one. There has been ill feeling between the parties, growing out of the opposition of Dr. A. to the election of Mr. F. as Treasurer of the Company. The Boston Herald says:

The Doctor has invested a large sum of money in the stock of the corporation of the Middlesex Mills. He is the owner of about one tenth of the entire stock of that great corporation, and some of a business turn Dr. Ayer has been looking very sharply after the financial affairs of the company, and his investigations have led him officially with the officers of the same. During the past year there has been considerable examination and recrimination between Dr. Ayer and the Treasurer of the corporation, Mr. Richard S. Fay, Jr. To-day their dispute came to a bitter serious crisis.

About half-past eleven o'clock Dr. Ayer was in the counting room of the Treasurer, No. 13 Pearl street, looking over the books of the corporation, and scrutinizing the management of the funds by Mr. Fay. The parties disagreed in sentiment. The stockholder found fault with the Treasurer. The Treasurer retorted. Their conversation became spicy; it grew exceedingly warm and at length blows were struck. We are not able to state who struck first, but it is certain that Mr. Fay pummelled Dr. Ayer, and with the latter punctured Mr. Fay with a pocket knife.

The Dr. states that he cut the Treasurer accidentally, that he had the knife in his hand at the affray commenced, and in his excitement to free himself from his antagonist he cut his abdomen.

In the afternoon Doctor Ayer was arraigned before Judge Maine, of the Police Court, upon a complaint charging him with an assault with intent to kill, and with an assault inflicting wounds which had endangered life. Doctor George Townsend was the only witness whose testimony was taken, and he said the wound was considered by Dr. Bigelow and himself, surgeons in attendance upon Mr. Fay, to be a dangerous one, as the epigastric artery was severed and it was found very difficult to stop the hemorrage. Under these circumstances Judge Maine required bail in the sum of $20,000, which was promptly furnished by three gentlemen present, and Doctor Ayer was set at liberty. Since that time Mr. Fay has been pronounced out of danger, and it is to be hoped that he will soon recover.

TRIAL OF STEAM FIRE ENGINES. At the muster in Manchester, there was a trial of two Steam Fire Engines, one belonging to Manchester, and the other, as yet unfinished, for Portland, Me.

The first played two streams 170 feet in height—having on 90lbs of steam to the inch—the other threw two streams 150 feet in height, with 80lbs of steam.

THE MANCHESTER RIOT. We are glad to know from undoubted testimony, that no member of the Bangor Company which was present at Manchester had part in the disgraceful riot in that city. We are assured that the Eagles were all in their own nests, at a distance from the scene of the affray.

Sch. Nancy L. Wasson, Blodget, of and from Bucksport for East Cambridge, struck on Saturday night, supposed on the Hardings, but came off and anchored, and soon after drifted ashore on Long Beach, where she remains full of water. Part of her deck load of lumber is washing away. It is supposed the vessel will not be worth the expense of getting her off.

—CUSTOM—
TAILORING
—AND—
CLOTHING
For Sale!
A very fine House Lot, with a great variety of Fruit trees in a bearing state, is left with the subscriber for sale on easy terms, situate opposite the garden of the subscriber, lying between French street and Broadway, nearly 200 feet deep and 100 feet on each street.
He has also, of his own, in each direction from this, many good Lots, which he would sell on easy terms, and a credit for the most (if wished.) He has two lots between the R. R. Bridge and Cumberland street; three for sale, East side of Centre st., opposite Parker's store; the part near the brook very favorable situations for the use of steam power; one very large one nearly opposite Madison street, with two Park Lots joining back of it for a large garden.
He has also over 30 acres in mowing and tillage, joining the intersection of Broadway and Centre st. on the East side, with a Farm House and small Barn, and what is worth more than both, a superior living fountain in its midst, and reservoir, built with brick, to hold 14 hids of water, which can be led in pipes to the most of the land.
—ALSO—
Some good land for small Farms, about two miles from Broadway, on Stillwater Avenue. Terms liberal.
ALSO,
THREE STORES,
AND
TWO STORE LOTS,
On the northern part of his Block, on East Market Square.
The strong desire he has to close up the most of his business, will induce him to sell LOW, and to give some very good bargains in the above, and on easy terms.
N. HARLOW.
jy19 tf

For Sale,
HOUSE LOTS, on the most elevated part of Centre street, commanding a fine view of the city and surrounding country.
These Lots have never been offered before, having been used for a Nursery, &c., joining their former residence.

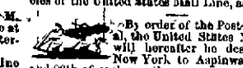
California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including the transit of the Isthmus via Panama R. R.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below



By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Steamers *without extra expense* This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight* thus avoiding the great exposure by night in open boats to fever and ague and 200 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passage, to the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the only *authorized Agent* for the U S and Pacific Mail Steamship Company in the city

C L BARTLETT Agent

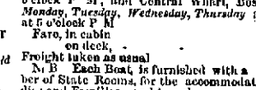
Brown's Wharf, Pier 12 N River,

Portland, New York

Portland, Dec 10 1858

Portland and Boston Line.



The Splendid new sea going Steamers *Forest City* & *Lewiston*, and *Montreal*, will, until further notice, run as follows

Leave Atlantic Wharf, Portland, every *Monday, Tuesday, Wednesday, Thursday* and *Friday* at 7 o'clock P M, and Central Wharf, Boston every *Monday, Tuesday, Wednesday, Thursday* and *Friday*, at 5 o'clock P M

Fare, in cabin $1,00

on deck, 1,00

Freight taken as usual

☞ Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and Families, and travelers are requested that by taking this line, much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours in the night will be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city

The Company are not responsible for baggage to any amount exceeding $50 in value, and that per sonal, unless notice is given and paid for at the rate of one passenger for every $500 additional value

jun 18 9 L. BILLINGS, Agent.

YOU HAD BETTER TRY MY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES and has been the agent of relieving so many sufferers to health and usefulness, that the proprietors feel it a duty they owe to the public further to recommend to the lovers of obloquy which rests upon it And we think we have ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS

Price, $1 per bottle. Six Bottles for $5

Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to publish the evidence of its virtues, wherever it has been employed As it has long been in constant use throughout this section, we need not do more than assure the people that its quality is kept up to the best it has ever been, and that it may be relied on to do for their relief all it has ever been found to do

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles Rheumatism, Gravel, Dropsy, Worms, Liver Complaint, Dropsy, Pettes Tumors and Salt Rheum, Worms, Gout Neuralgia, or a Dinner Pill and for Purifying the Blood

They are sugar-coated so that the most sensitive can take them pleasantly and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box. Five boxes for $1

Great numbers of Clergymen Physicians, Statesmen and eminent personages, have left the names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them The Agents below name from such gentlemen as *American Sentinel*, in which they are given, with also full descriptions of the above complaints and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on Demand AYER'S and take no other. The sick want the best and there is for them and they should have it

Sold by W L Alden & Co, B F Bradbury, N S Harlow J S Ingersbing, and Wm Mann, Bangor, T P Batchelder, Kenduskeag, F B Warren Dixfield, Corinth S Libby, Orono, J H. Soper, Belfast, and by all druggists and merchants throughout the country may17 6owd&wly

Ayer's Sarsaparilla,

A COMPOUND REMEDY, in which we have labored to produce the most effectual alterative that can be made It is a concentrated extract of Para Sarsaparilla, so combined with other and stronger of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure It is believed that such a remedy is wanted by those who suffer from Strumous complaints and that one which will accomplish their cure must prove of immense importance to this large class of our afflicted fellow citizens How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints —

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, LEGGS PIMPLES, BLOTCHES, TUMORS SALT RHEUM SCALD HEAD, SWELLINGS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY INTERNAL OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, LIVERSIDE ROSE OR ST ANTHONY'S FIRE and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD

This compound will be found a great promotor of health when taken in the spring to expel the foul humors which lurker in the blood at that season of the year By the timely expulsion of them many sickly disorders are nipped in the bud Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores through which the system will strive to rid itself of corruption, if not assisted to do this through the natural channels of the body by an alterative medicine Cleanse the vitiated blood whenever you find its impurities bursting through the skin in pimples eruptions or sores cleanse it when you find it is obstructed and sluggish in the veins, cleanse it whenever it is foul, and your feelings will tell you when Even when no particular disorder is felt people enjoy better health, and live longer, for cleansing the blood Keep the blood healthy, and all is well, but with this pabulum of life disordered there can be no lasting health Soon or at later something must go wrong, and the great machinery of life is disordered or overthrown

Sarsaparilla has, and deserves much, the reputation, of accomplishing those ends But the world has been egregiously deceived by preparations of it partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or any thing else

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar Most of these have been frauds upon the sick, for they not only contain little if any Sarsaparilla, but often no curative properties whatever If, too, bitter and painful disappointment has followed the use of the best extracts of Sarsaparilla which flood the market, until the name has fallen justly despised, and has become synonyme as with impositions as Lobelia Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall remove the name from the

"MY MOTHER'S SALVE"

IS SAFE AND EFFECTUAL and all those troubled with PILE TUMORS, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find it to use great relief, and in most cases a PERMANENT CURE.

"MY MOTHER'S SALVE

In a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation

"MY MOTHER'S SALVE

is worthy of confidence, and those persons having used it and recommended it to their friends is a test of its worth *Directions for using*

"MY MOTHER'S SALVE

are simple Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the salve will apply it in proportions, removed at times as good judgment may direct. For Rheumatism and other pains rub the parts smartly with the Salve In case of Cough Tightness of the Lungs Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain a good result follows the use of this Salve Prepared by J. H. UBOM, *BURRILL & HUNTING* Sole Proprietors,

New England Ailments

AND

THE ONLY REMEDY!!

THE Eastern States, included, in that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity, with a climate extremely trying to certain constitutions, and a soil of ungrateful sterility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement Thousands are now paying the penalty of this neglect, and suffering as by the most trying pains, almost without a hope of relief They have come to believe that their ailment is chronic, but that they must bear it to the end It gratifies us exceedingly to announce to these afflicted individuals that they may now commence a speedy and unquestionable potency and virtue which has never been found to fail in all cases of digestive weakness or derangement Hundreds of testimonials are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR J HOSTETTER'S

Celebrated Stomach Bitters.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life giving medicine, whose effects upon the system shall be both speedy and permanent—Physicians of eminence, and profoundly acquainted with the requirements of the human frame commend *Hostetter's Bitters* as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a merry current, corrects a tendency to depression of spirits and fits a man for the transaction of business with a cheerful heart and active mind Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting It a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine the enfeebling effects of the decline of life are counteracted by its use and the whole edifice of health is fortified against the assaults of disease

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburg, Pa and also sold by all druggists generally throughout the United States, Canada South America, and Germany

Sold, wholesale and retail by B F Bradbury and N S Harlow, Bangor, at retail by R F Kimball Orono, S Libby, Orono, J H. Soper, Belfast, and by all druggists and merchants throughout the country may17 6owd&wly

Science Confounded

AND THE

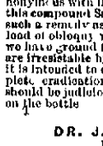
WORLD ASTOUNDED!

BY THE

Great Cures

Made by DR. NORCROSS

CELEBRATED REMEDIES!



Thousands who have been laid low by disease will attest to the healing powers By the use of them they have been restored to health and vigor, and their gratitude is unbounded Oh, could the world be wise—throw aside the poisonous and deleterious medicines they now use which serve to reduce their physical strength, and bring on weakness and debility, and substitute other troubles—and take the Norcross Medicines which operate upon the whole system Like a charm, and which are Amphibious, the poison of one who ever used them will testify—

A sovereign balm for every wound,

A cordial for our hours

Oh, reader, wise—don't longer delay Delays are dangerous, and while you are taking the poisonous drugs, the disease may have so far progressed as to make it too late to hope Now is the time to buy and now be healthy, and again to enjoy the blessing of health. Try the remedy you will never have cause to repent of it

Dr. A. L. Norcross' Medicines,

Sugar Coated Vegetable Bilious Pills

In bringing this Medicine before the public, I have no desire to extol its medical properties above what it honestly deserves I have used them in my practice for the last twenty years and have ever found them to be a sure remedy in overcoming disease from the system Thousands who have used them would willingly attest to their healing qualities Therefore I have no hesitation in warranting them to be the best Cathartic now before the public—These Pills have more than a simple claim on the public, for the following reasons They are purely vegetable They cause no pain or gripe, although they are certain in their operations and are perfectly safe in all cases of female complaint, for they do not weaken but strengthen the whole system by exciting every organ to a healthy action They are also a sure remedy for all diseases that arise from impurities of the blood—such as Indigestion of the Stomach, Costiveness, Bowels, Spleen, Blind Rheumatism Bowel Complaints Jaundice Headache, Loss of Appetite Languor, Debility, and last of all, warranted a sure cure for Dyspepsia, in all its forms, if they are taken judiciously Numerous testimonials might be had to the truth of the good properties but I feel willing to let them stand on their own merits *Sample box 25 cents*—5 cents

JAUNDICE ELIXIR.

James Conner

Scrofula or King's Evil,

IS a constitutional disease, a corruption of the blood, by which the system becomes vitiated weak and poor Boils, in the circulation, it pervades the whole body and manifests itself in disease on any part of it Any organ is liable to be attacked from its attack nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease Living, long forced or unhealthy food, impure air, filth and filthy habits, dissipating habits, and above all by the universal inflection Which so strongly it
